**REPORT
OF THE
FISCAL
COMMISSION
1949-50**

Volume Four

Price Rs. 2 As. 2 Gs. 34. 84

Acc. No. 640

337.7.

FOREWORD

This brochure which now forms Volume Four of the Report of the Fiscal Commission was originally intended only for the use of the Members of the Fiscal Commission who, in one of its early sessions, had asked for a handy compilation bringing together the basic statistical data on some important aspects of the country's economy. In view of the wide interest since displayed in this compilation, and the many requests received for its re-publication as part of the records of the Commission, it is now reprinted, with some minor modifications, as Volume Four of the Commission's report.

2. Most of the data assembled in the brochure have been collected from recognised official sources, but the compilation of some of the statistics, *e.g.* those relating to employment in organised industries, has been the result of special investigation and analysis undertaken in the Secretariat of the Commission. Wherever possible, the figures have been shown separately for divided and undivided India.

3. No attempt has been made in this publication to analyse the data or to indicate the statistical trends based on such analysis. That was a task which was separately undertaken in the Commission's Secretariat. The object of this brochure, as originally designed, was to present to the Members of the Fiscal Commission as objectively as possible the more important of the relevant statistical material bearing on the Commission's enquiry in a *format* that could be conveniently handled by them.

4. It is to be hoped that this reprint will be of interest and use to the readers.

D. L. MAZUMDAR,

Member-Secretary, Fiscal Commission.

SECRETARIAT OF THE FISCAL COMMISSION,
NEW DELHI;

June 22nd, 1950.

CONTENTS

AREA AND POPULATION

TABLE		PAGE
I.	Distribution of Area and Population between Indian Union and Pakistan (1941)	1

Bombay	98,675	254	29,934	24,977	5,975	19,002
Bengal (West)	28,155	93	34,249	21,196	4,614	16,583
U.P.	106,247	445	102,388	55,021	6,855	48,165
Punjab (East)	37,428	96	15,698	12,697	1,916	10,782
Bihar	70,368	89	69,733	36,546	1,962	34,583
C. P. and Berar	130,323	134	48,218	19,648	2,219	17,429
Assam	50,296	25	23,395	7,472	225	7,247
Orissa	59,869	29	45,387	13,708	412	13,356
Centrally administered areas†	27,249	33	10,487	3,256	1,046	2,209
States and States Unions†	483,633	811	144,599	74,481	10,959	64,218

*Figures given in thousands are rounded individually to the nearest thousand; hence the difference in some cases between the details and the total.

†All figures for the Indian Union have been arranged according to the Provincial, State Union, etc., lay-out as it stood in January 1949.

PROVINCES comprise all the nine provinces in the Indian Union plus such States as had merged with either of these provinces by January 1949 ;

CENTRALLY ADMINISTERED AREAS also now include Bilaspur and Himachal Pradesh ;

STATES AND STATES UNIONS INCLUDE Hyderabad, Kashmir and other acceding states.

1931	64,747	33,452	31,295	+7,870	+4,037	+3,833
1941	74,477	38,469	36,008	+9,730	+5,017	+4,713
1948*	79,398	41,012	38,385

†See foot-notes to Table II.

*Estimates of population for 1948 are based mainly on the birth/death records. Where there are no birth/death records, the average for the Province or the rate for the adjoining Provinces has been adopted. It does not profess to estimate specifically the population shifts as the results of 1947 movements but offers a dimensional picture which may be of use.

TABLE XI

Index Number of Agricultural Production in Indian Union

Index Numbers of Indian Agricultural Production given below have been compiled by the Directorate of Economics & Statistics, Ministry of Agriculture, Government of India. The total production of each of the nineteen principal agricultural commodities in the Indian Union (including States) for which estimates of production are available, has been expressed as a percentage of the average production of the commodity during the Base period 1934-35 to 1938-39. The nineteen items have been arranged in two major groups (1) food-grains group and (2) non-foodgrains group and the index numbers for these groups have been given separately. The General Index is obtained by combining the two group indices. In all cases the weighted geometric mean of the production relatives is taken to represent the index number of production. The weights assigned to different commodities are proportioned to the total value of each commodity during the base period.

Estimates of production taken into consideration are the revised estimates published in the 'Estimates of Area and Yield.' In evaluating the average value of production, the average harvest prices during the base period have been used. Where the harvest prices are not available in respect of a particular commodity, they have been estimated from the wholesale prices.*

Base :—Quinquennium 1934-35 to 1938-39 = 100

Commodities	1939-40	1940-41	1941-42	1942-43	1943-44	1944-45	1945-46

*This is the latest year for which detailed Statistics are available. These statistics relate to all factories which come under the operation of the Factories Act (XXV of 1934), as amended upto 1943 (excepting those in which the average number of workers employed daily is less than twenty) and also those establishments in Indian states which are considered to be of sufficient industrial importance, so far as it has been possible to procure information.

†The average number of workers employed, calculated by dividing the aggregate number of attendances on working days by the number of working days in the year.

‡Figures in brackets relate to seasonal factories below totals for perennial and seasonal. Figures for seasonal factories are given separately only when the number of such factories is significant.

(a) Spinning, weaving and other factories; (b) Smelting and steel rolling mills, (c) Including Paper pulp; (d) Including lime and potteries; (e) Ginning and baling.

SOURCE:—Compiled from the data published by the Director General of Commercial and Statistics.

EMPLOYMENT IN FACTORIES

TABLE XXVI

Average Daily Number of Workers Employed in Seasonal and Perennial Factories

(a) The following tables cover factories as defined in Section 2(i) of the Factories Act, 1934 and those notified by the Provincial Governments under Section 5(i) of the Act.

(b) The average daily number is calculated by dividing the aggregate number of attendances on working days by the number of working days in year.

(c) BURMA is excluded throughout.

(d) Upto 1945 figures relate to British India. Figures for 1945 (b) and 1946 (b) exclude Punjab and North Western Frontier Provinces.

(e) Figures for 1946 (c), 1947(c) and 1948(c) relate to Provinces and Centrally Administered Areas in the Indian Union *excluding* East Punjab.

(f) Figures for 1948 (d) include East Punjab.

(g) Figures for 1948 (c) and 1948 (d) relate to the first half of the year only.

(Figures in thousands)

N. A.—Not available.

(a) Owing to the change in the definition of seasonal factories made in the Factories Act, 1934 statistics for seasonal and perennial factories shown for 1935 are not strictly comparable with those for 1934.

(b) Excluding Punjab and N.W.F.P.

(c) Provinces and centrally administered areas in Indian Union excluding Pakistan.

(d) Provinces and centrally administered areas in Indian Union (including East Punjab)

*Private merchandise only.

†The figures exclude the direct foreign sea-borne trade of the Pakistan Provinces of Sind and East Bengal with effect from the 1st and 15th August 1947 respectively. They do not include India's sea-borne trade with Pakistan up to February 1948. From 1st March 1948, these accounts include the Sea-borne Trade of India with Pakistan and exclude the direct foreign trade of Pakistan.

‡From 1st April 1948, the distinction between Private merchandise and Government Stores has been abolished and combined figures of trade under both these categories are published.

From 1st June 1948 these accounts include the foreign sea-borne trade of Kutch.

TABLE XXXVIII

*Direction of Sea-Borne Trade (Private and Government) According to Currency**Areas*

Sterling area.—All the British Commonwealth countries, Mandated Territories and all British protectorates (or protected states viz., Kuwait, Maskat Territory and Trucial coast) excluding Canada, Newfoundland, the Anglo-Egyptian Sudan together with Burma, Iraq, Eire and Iceland. Since the figures of Kuwait (a British protected State) are not available separately for 1938-39, this country is grouped in "Other Soft Currency Countries" instead of Sterling Area Countries for this year.

Dollar Area.—The whole of the continent of North, Central and South America and adjacent islands (excluding Brazil, Chile, Uruguay, Peru and European possessions) together with Philippines.

Other American Account Countries.—Mexico, Cuba, Guatemala, Honduras, Nicaragua, Costa Rica, Panama, Haiti, Dominican Republic, El Salvador, Venezuela, Columbia, Equador, Bolivia and Philippines.

Other Hard Currency Countries.—Belgium and its possessions, Portugal and its possessions (excluding Portuguese India), Germany and Japan.

Medium Currency Countries.—Switzerland and Sweden.

CURRENCY AND BANKING

TABLE XLV

Money Supply in Undivided India

Table below gives figures of money supply with the public (excluding small coin) in undivided India for the period 1938-39 to 1947-48 as on the last Friday of each year. In the absence of figures of circulation of rupee coin, only variations in money supply are shown for the years 1938-39 to 1941-42 (*vide* column 13), while absolute figures of money supply, including the circulation of rupee coin, are given for the subsequent years (*vide* column 12). It is not possible to give the totals of money supply during 1948-49 owing to the non-availability of actual figures of circulation both of notes and rupee coin in the Indian Union separately from Pakistan.

Variations in money with the public (excluding small coin) in the Indian Union during 1948-49 on a monthly basis however, are indicated below :—

April	+ 39.4	August	—11.0	December	+18.6
May	+ 9.0	September	—16.2	January	—14.8
June	—9.3	October	+1.0	February	+13.9
July	—33.4	November	—16.7	March	+5.5
		1948-49	—11.7		

These figures are provisional and relate to variations in figures as on last Fridays of the period indicated.

Money supply is taken as the total of (1) legal tender currency with the public (*i.e.*, notes and coin in circulation *minus* notes and coin held in Government Treasuries, *minus* notes and coin held by scheduled, non-scheduled and co-operative banks) and (2) demand liabilities of scheduled non-scheduled and co-operative banks, *minus* inter-bank demand deposits* *plus* deposits with the Reserve Bank of India excluding those of the Central Government and banks. The Central Government's holdings of currency and deposits have been excluded from money supply, since it is possible for Governments to use changes in their cash balances as instruments of monetary policy and as the size of such cash balances does not generally influence their expenditure in the same way as in the case of individuals and business men. Money supply as defined above covers all forms of exchange media held by the public, *i.e.*, by all entities other than banks and the Central Government.

*As the figures in respect of inter-bank demand deposits are available only from July 1948 these have not been taken into account in computing the figures of money supply.

NOTE.—Figures for Burma are excluded. Data relate to undivided India upto 1947-48; those for 1948-49 are for the Indian Union. Figures shown in brackets, which relate to Pakistan are averages for the periods 15th August 1947 to March 1948 and April to June 1948 in respect of the years 1947-48 and 1948-49.

*For the purpose for Section 42 of the Reserve Bank of India Act, Savings Deposits are classified under demand of time liabilities according to the rules of the various scheduled banks in respect of withdrawal of these deposits. Annual figures are as on last Friday of March, and monthly figures are as on last Friday of each month; figures for Pakistan exclude those for Lahore circle.
